MAINTENANCE PRODUCTS

FROM THE TRUSTED NAME IN HANDPIECE REPAIR & MAINTENANCE

ONESTEP™ HANDPIECE LUBRICANT CLEAN & LUBRICATE IN ONE EASY STEP!

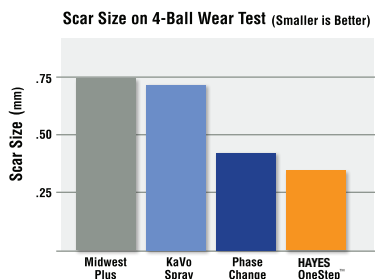

Available in:

- Aerosol cans (with your choice of nozzle adapter)
- Dropper bottles
- Bottles for the W&H Assistina maintenance unit

Rigorous sterilization procedures, such as autoclaving, can substantially increase the rate at which dental handpieces break down. Hayes OneStep™ is a superior handpiece lubricant that improves handpiece performance and prolongs handpiece life.

- Used by thousands of practices across the country
- Easy-to-use
- Superior formulation
- Ideal for high-speeds, low-speeds and attachments
- Perfect for the Adec Assistina maintenance unit

Independent Testing Shows Hayes OneStep™ Scores Better

The industry-standard four-ball wear test shows less scarring on the handpiece turbine ball bearings with the use of Hayes OneStep. Less visible scarring means better lubricant performance.

Nozzle adapters available for: 5-hole, W&H/Adec/Schein, KaVo, E-type, Star, NSK, Lares, Midwest XGT & Bien-Air handpieces

6.35 oz. Aerosol (HA-30.02)	\$14.99
430 mL Aerosol (HA-30.03)	\$45.99
1 oz. Dropper Bottle 2pk (HA-30.0)	\$29.99
500 mL Lubricant for Assistina (HA-30.15)	\$59

TRIPLE ENZYME CLEANER

PERFECT FOR ALL ULTRASONIC CLEANERS

Proprietary blend of Protease, Amylase and Lipase enzymes effectively removes all types of bio-burden. That's three enzymes, instead of just one included in most enzymatic detergents.

- Safe & effective for ultrasonic cleaning
- Ideal as a pre-soak prior to disinfecting instruments
- Proprietary surfactant blend provides superior wetting action for better cleaning
- Neutral pH, non-corrosive & includes rust inhibitors so it's safe for all instruments
- Convenient—choose from foam spray, pre-measure solution, or gallon solution
- Pleasant lavender fragrance
- Environmentally friendly formula—no phosphates, chlorides or hydroxides
- Made in the USA

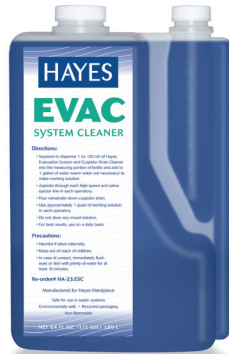

Foam - 32 oz. Ready-to-Use Spray (HA-BEC32SH)	\$19.99
Solution - 32 oz. Pre-Measure (HA-BEC32PMH).....	\$19.99
Concentrated Solution - 1 Gallon (1 ounce/gallon dilution = 128 gallons of solution) (HA-BM-BEC1H)	\$29.99

EVAC SYSTEM CLEANER

SAFE FOR PATIENTS, STAFF, EQUIPMENT & THE ENVIRONMENT

This bacterial-based evacuation system cleaner is specially formulated for the dental environment. Contains eight strains of healthy bacteria to produce more than 20 enzymes to clean your evacuation system.

- **No need for hot water like other evac cleaners**
- Non-foaming and non-misting
- Safe in all vacuum environments & all discharge scenarios
- Safe for all amalgam separators
- Does not contain potentially dangerous bacteria such as pseudomonas (common in products made for septic systems)
- Developed over 12 years ago in the USA
- Economical—1 ounce makes 1 gallon of working solution

64 oz. bottle—makes 64 gallons of solution—enough for 256 operatory applications (HA-23.ESC)\$29.99

EVAC DISPENSER BOTTLE

CONVENIENT TO USE WITH OUR EVAC SOLUTION

- Includes daily use instructions for Hayes Evac Solution
- Includes nozzles for HVE valve & saliva ejector valve

1 Gallon Container (HA-23.5000-1)\$55

TIDY WHITIES™

ORIGINAL HANDPIECE & INSTRUMENT WIPES

Tidy Whites are your first step in maintaining your handpieces and instruments. Before you sterilize, use Tidy Whites for an initial fast and easy wipe-down. Our non-corrosive formula will quickly remove visible bio-burden while protecting your handpiece and instrument investment.

- Cleans & shines
- Convenient
- Non-corrosive

1 Canister (HA-28.TW).....\$16

NEED MORE MAINTENANCE HELP?
